## 8. OBJECTIVE REVIEW OF THE BANK'S STATUS, PERFORMANCE AND DEVELOPMENT, DESCRIPTION OF MAIN RISK TYPES

Public limited liability company Bank SNORAS, established as Šiauliai regional bank in 1992, was renamed as AB Bankas SNORAS in 1993. After sixteen years of activity SNORAS became one of the largest Lithuanian banks. Having the widest and the most modern territorial customer service network in the country – ten regional branches of the bank, thirteen branch outlets, 232 territorial units and 338 ATM machines, Public limited liability company Bank SNORAS successfully consolidates its positions in the Lithuanian retail banking market and it implements an active expansion strategy in the member states of the European Union.

The trends of the main strategic activity of Public limited liability company Bank SNORAS:

- Retail and corporate banking;
- Expansion of services in the companies of the bank's group;
- Investment banking and corporate finances.

Public limited liability company Bank SNORAS has branches in Estonia and Latvia as well as representative offices in Great Britain, in the Kingdom of Belgium, Czech Republic, Ukraine, and Belarus. Bank SNORAS owns the controlling block of shares of Latvijas Krajbanka – the oldest Latvian bank with the largest network.

Public limited liability company Bank SNORAS manages six subsidiary companies in the country: UAB "SNORO LIZINGAS" (SNORAS leasing), UAB "SNORO turto valdymas" (SNORAS property), AB "Finasta Holding", UAB "VILNIAUS KAPITALO VYSTYMO PROJEKTAI" (SNORAS development), UAB "SNORO valda", and UAB "SNORO Media Investicijos" which provide Lithuanian and Baltic market participants with real

estate management, constructions and renovation, money, leasing and securities funds management services as well as real estate operational supervision and administration.

Public limited liability company Bank SNORAS is the third bank in Lithuania according to the attracted deposits and the fifth bank according to the managed assets. More than 1.09 million clients use the bank's services. The slogan "My closest bank" reflects Bank SNORAS endeavour to become close to every customer.

In 2009 Bank SNORAS was successfully entrenching in its leading position on the retail banking market in Lithuania. The deposit portfolio increased almost by LTL 1 billion and comprised LTL 4.99 billion.

ROE of the Bank reached 1.74% (4.43% in 2008), ROE of the Group shareholders was -6.59% (4.40 in 2008); ROA of the Bank reached 0.14% (0.39% in 2008), ROA of the Group was -0.50% (0.28% in 2008).

In 2009 the Bank complied with all prudential requirements which on 31 December 2009 stood at:

- ➔ The adequacy ratio of the Bank's capital was 11.23 per cent.
- ➔ The liquidity ratio of the Bank was 55.33 per cent.
- ➔ Maximum open position in foreign currencies of the Bank was 4.75 per cent.
- ➔ The Bank is executing Maximum Lending to One Borrower standard.
- ➔ The Bank is executing Significant Loan standard.

Risk management constitutes the grounds of the Bank's activities and the integral part of the Group's operation. The following exposures are the most important to the Group: credit, market, liquidity and interest rate as well as operation exposure.

#### Credit risk

The Group is exposed to the credit risk of the counterparty being not able to repay the whole amount on time. The Group exposes itself to the credit risk by providing loans to the customers as well as one on the interbank market.

The Group does not use any derivative credit instruments. The Group minimizes its credit exposure by requiring collaterals and guarantees.

The Group distributes credit exposure between structural levels by setting maximum lending to one borrower, group of borrowers, geographical or industrial area limits. This risk is managed by means of monthly reviews, reporting and preventive control of regulatory compliance.

#### Market risk

The Group is exposed to the market risk, which is the risk that the bank will suffer losses due to the fluctuation of market variables. The main market exposures are interest rate, exchange rate and share price risks.

The Group distributes market exposure between structural levels by imposing risk limits for the position, maximum loss, portfolio diversification and by taking risk buffering measures.

This risk is managed by means of daily assessment of positions by market value, control of compliance and regular reporting.

(VaR) risk value methodology is used.

Debt securities portfolio (the Bank possesses the most significant part of it) delivers the Group the main exposure to the market risk. The Bank uses share futures in interest rate risk management.

Currency position was not significant. Currency position risk is managed by limits imposed to the open position in foreign currencies.

#### Operational risk

Operational risk is defined as the risk of direct and indirect loss due to the improper internal processes, actions of employees, bank's systems and external events.

The Bank manages the operational risk using complex operational risk management system.

The main component of this system is a register of operational risk events. There are persons responsible for the operational risks appointed in every division of the Bank and subsidiary. These employees complete the register of operational risk events specifying operational risk events in every division. All the entries are centrally systemised and analysed later on.

The Bank as well uses questionnaire based self-assessment in operational risk management. The analysis of the questionnaires allows identifying of the most exposed sites of the Bank's processes and structure as well as imposing preventive measures.

The most important operational risk management preventive measure is insurance. Insurance helps to minimize losses due to the loss of material assets.

The Bank constantly improves operation risk management in order to secure the Bank's processes and systems.

#### Liquidity risk

The Bank pays a lot of attention to the liquidity risk management. The Bank complied with liquidity standard set by the Bank of Lithuania in 2009 (the ratio of the liquid assets of a bank to its liabilities must be at least 30 per cent) – the liquidity ratio of the Bank was usually over the standard and grew up to 55.33 per cent in 2009.

In addition to the compliance with the standards set by the Bank of Lithuania, the Bank uses its internal liquidity management measures. The Bank imposes preventive internal liquidity ratios system, constantly analyses money flows.

The liquidity gap and premature deposits termination ratios as well as deposit fluctuation tendencies are constantly monitored by the Bank.

#### Gross interest rate risk

The Bank was constantly monitoring and analysing gross interest rate and Bank's interest margin figures in 2009.

The main interest rate risk management measure is interest rate gap report.

### 9. ANALYSIS OF FINANCIAL AND NON-FINANCIAL RESULTS OF THE ACTIVITY

In 2009 the Bank continued successful implementation of its strategy acting on the market of Lithuanian banks as a universal bank with orientation towards retail banking, developing the performance of subsidiary Latvijas Krajbanka in the Republic of Latvia as well as expanding other spheres of the activity through its subsidiary companies - UAB "SNORO LIZINGAS", UAB "SNORO turto valdymas", AB "Finasta Holding", UAB "VILNIAUS KAPITALO VYSTYMO PROJEKTAI", UAB "SNORO valda", and UAB "SNORO Media Investicijos".

### 13. SIGNIFICANT EVENTS THAT HAVE TAKEN PLACE SINCE THE END OF THE LAST FINANCIAL YEAR

On 31 August 2009, AB Bank SNORAS distributed EUR 21 million (LTL 72.5 million) of termless debt securities included in the capital. Bonds were distributed non-publicly. The funds attracted on 6 November 2009 were included in the Bank's tier 2 capital.

On 16 September 2009, the subsidiary company of AB Bank SNORAS – AB "Finasta Holding" (the former UAB „SNORO Investicijų valdymas“) acquired from AB „Invalda“ 100 per cent of the shares of AB „Finasta įmonių finansai“ which manages AB Bank „Finasta“ as well as 100 of the shares of the companies AB FMJ „Finasta“, UAB „Invalda turto valdymas“ and IPAS „Invalda Asset Management Latvia“.

### 14. INFORMATION ABOUT COMPANY PLANS, DEVELOPMENT AND FORECASTS

The year 2009 was highlighted by stagnation in financial markets. It conditions a fairly conservative activity of the Bank.

In 2010, Bank SNORAS will carry out its activity both in Lithuania and abroad endeavouring to hold the present market shares and, having an opportunity, to enlarge them. The Bank will seek to earn profit.

The Bank will take an active position in developing and expanding the segments of small and medium business clients and retail banking.

In the local market, the Bank will be maintaining and improving the present customer service network. The number of the network subdivisions will basically remain the same. During the upcoming three years, it is scheduled to optimize the customer service network of the Bank – the subdivisions may be both closed and relocated as well as new subdivisions may be established. However, essential changes are not planned during the nearest several years.

These actions will improve the customer service quality and will create conditions for increasing the sales of the Bank's products and services.

Bank SNORAS will also be expanding its activity through the subsidiary companies of the bank. AS "Latvijas Krājbanka" operating in the Republic of Latvia will be carrying on its business seeking to hold the current market shares and, having an opportunity, to enlarge them. AS "Latvijas Krājbanka" will endeavour to earn profit. AB Bank "Finasta" will be strengthening its positions in the sphere of investment banking and will be actively increasing the scopes of its activity. Other subsidiaries of the bank will be expanding their activity seeking to gain profit.

The Bank will continue the actions necessary for implementing the adopted decisions concerning the Bank's territorial expansion abroad – the Bank's Latvian branch established in 2009 will open its doors in spring.

The growth of the Bank's property is mostly associated with attracting financial resources in the internal market and with appropriate capital injections necessary for ensuring the development. If there is a favourable situation in the market, it is possible to use the opportunity to attract financing through emissions of debt instruments.

Taking into consideration the financial situation presently dominating in the country and on external markets, in 2010 the Bank hopes to see growth of the main indexes. Hopefully, the net interest margin will be increasing as the price of the attracted funds will be decreasing.

In 2010 Bank SNORAS will continue implementation of the united banking platform Oracle FLEXCUBE that was started in 2008. The system will operate in all banks of SNORAS group, it will allow to increase the scope economy, to accelerate the supply of new products to the market as well as to increase the activity efficiency.

## 23. INFORMATION CONCERNING THE COMPLIANCE WITH THE GOVERNANCE CODE FOR THE COMPANIES

Public limited liability company Bank SNORAS, following Article 21 paragraph 3 of the Law on Securities of the Republic of Lithuania and item 20.5 of the Trading Rules of AB NASDAQ OMX Vilnius, discloses its compliance with the Governance Code, approved by the VSE for the companies listed on the regulated market, and its specific provisions. In the event of non-compliance with the Code or with certain provisions thereof, it must be specified which provisions are not complied with and the reasons of non-compliance:

PRINCIPLES/ RECOMMENDATIONS	YES/NO /NOT APPLICABLE	COMMENTARY
Principle I: Basic Provisions		
The overriding objective of a company should be to operate in common interests of all the shareholders by optimizing over time shareholder value.		
1.1. A company should adopt and make public the company's development strategy and objectives by clearly declaring how the company intends to meet the interests of its shareholders and optimize shareholder value.	Yes	The activity strategy and the objective of the Bank are disclosed in the annual report of the Bank, part of the informatikon is available at the website of the Bank.

1.2. All management bodies of a company should act in furtherance of the declared strategic objectives in view of the need to optimize shareholder value.	Yes	
1.3. A company's supervisory and management bodies should act in close co-operation in order to attain maximum benefit for the company and its shareholders.	Yes	
1.4. A company's supervisory and management bodies should ensure that the rights and interests of persons other than the company's shareholders (e.g. employees, creditors, suppliers, clients, local community), participating in or connected with the company's operation, are duly respected.	Yes	The Supervisory Board of the Bank, the Management Board and the head of administration evaluate the input of the bank employees in the improvement of the bank activity. For this purpose the employees are given the opportunities for self-improvement, to have thorough participation in the bank activity, the Bank awards the employees for novel ideas in the field of bank activity improvement. The Bank extends financial support for sports events, exhibitions, makes investments in the cultural life of the local community.

#### Principle II: The corporate governance framework

The corporate governance framework should ensure the strategic guidance of the company, the effective oversight of the company's management bodies, an appropriate balance and distribution of functions between the company's bodies, protection of the shareholders' interests.

2.1. Besides obligatory bodies provided for in the Law on Companies of the Republic of Lithuania – a general shareholders' meeting and the chief executive officer, it is recommended that a company should set up both a collegial supervisory body and a collegial management body. The setting up of collegial bodies for supervision and management facilitates clear separation of management and supervisory functions in the company, accountability and control on the part of the chief executive officer, which, in its turn, facilitate a more efficient and transparent management process.	Yes	In compliance with the laws of the banks and financial institutions of the Republic of Lithuania the Bank has an instituted supervisory board, board of management and an elected head of administration.
2.2. A collegial management body is responsible for the strategic management of the company and performs other key functions of corporate governance. A collegial supervisory body is responsible for the effective supervision of the company's management bodies.	Yes	The collegial management body – the management board – performs the Bank management functions, whereas the collegial supervisory body – the supervisory board – supervises the work of the management board as well as the efficiency of its functions performance.
2.3. Where a company chooses to form only one collegial body, it is recommended that it should be a supervisory body, i.e. the supervisory board. In such a case, the supervisory board is responsible for the effective monitoring of the functions performed by the company's chief executive officer.	Not applicable	The Bank forms both the supervisory board and the management board.
2.4. The collegial supervisory body to be elected by the general shareholders' meeting should be set up and should act in the manner defined in Principles III and IV. Where a company should decide not to set up a collegial supervisory body but rather a collegial management body, i.e. the board, Principles III and IV should apply to the board as long as that does not contradict the essence and purpose of this body.	Yes	The members of the Bank supervisory board are elected by the shareholders from the candidates suggested by the shareholders, for this reason the order of forming the supervisory board ensures the representation of interests of the minority shareholders of the bank.
2.5. Company's management and supervisory bodies should comprise such number of board (executive directors) and supervisory (non-executive directors) board members that no individual or small group of individuals can dominate decision-making on the part of these bodies.	Yes	Both the supervisory board and the Bank management board have 7 (seven) members each. The extraordinary general shareholders' meeting, which took place on 5 November 2009, approved of the changing of the Articles of Association whereby the Supervisory Board of the Bank consists of 5 members.
2.6. Non-executive directors or members of the supervisory board should be appointed for specified terms subject to individual re-election, at maximum intervals	Yes	The bank's supervisory board is elected for 4 years and the terms of office of a supervisory board member are unlimited. According to the now valid

provided for in the Lithuanian legislation with a view to ensuring necessary development of professional experience and sufficiently frequent reconfirmation of their status. A possibility to remove them should also be stipulated however this procedure should not be easier than the removal procedure for an executive director or a member of the management board.

articles of association and practice of the Bank, it is not prohibited to elect the same supervisory board members for a new term of office.

2.7. Chairman of the collegial body elected by the general shareholders' meeting may be a person whose current or past office constitutes no obstacle to conduct independent and impartial supervision. Where a company should decide not to set up a supervisory board but rather the board, it is recommended that the chairman of the board and chief executive officer of the company should be a different person. Former company's chief executive officer should not be immediately nominated as the chairman of the collegial body elected by the general shareholders' meeting. When a company chooses to depart from these recommendations, it should furnish information on the measures it has taken to ensure impartiality of the supervision.

Yes The chairman of the supervisory board can conduct independent and impartial supervision because he never was and at the moment is not the head of bank's administration.

Principle III: The order of the formation of a collegial body to be elected by a general shareholders' meeting

The order of the formation a collegial body to be elected by a general shareholders' meeting should ensure representation of minority shareholders, accountability of this body to the shareholders and objective monitoring of the company's operation and its management bodies.

3.1. The mechanism of the formation of a collegial body to be elected by a general shareholders' meeting (hereinafter in this Principle referred to as the 'collegial body') should ensure objective and fair monitoring of the company's management bodies as well as representation of minority shareholders.

Yes The mechanism of the formalion of the supervisory board is ensured by the objective and fair monitoring. The minority shareholders are not limited in their right and opporunity to have their representative in the supervisory body.

3.2. Names and surnames of the candidates to become members of a collegial body, information about their education, qualification, professional background, positions taken and potential conflicts of interest should be disclosed early enough before the general shareholders' meeting so that the shareholders would have sufficient time to make an informed voting decision. All factors affecting the candidate's independence, the sample list of which is set out in Recommendation 3.7, should be also disclosed. The collegial body should also be informed on any subsequent changes in the provided information. The collegial body should, on yearly basis, collect data provided in this item on its members and disclose this in the company's annual report.

Yes

3.3. Should a person be nominated for members of a collegial body, such nomination should be followed by the disclosure of information on candidate's particular competences relevant to his/her service on the collegial body. In order shareholders and investors are able to ascertain whether member's competence is further relevant, the collegial body should, in its annual report, disclose the information on its composition and particular competences of individual members which are relevant to their service on the collegial body.

Yes

3.4. In order to maintain a proper balance in terms of the current qualifications possessed by its members, the composition of the collegial body should be determined taking into consideration to the company's structure and activities, and it should be periodically evaluated. The collegial body should ensure that it is composed of members who, as a whole, have the required diversity of knowledge, judgment and experience to complete their

Yes

tasks properly. The members of the audit committee, collectively, should have a recent knowledge and relevant experience in the fields of finance, accounting and/or audit for the stock exchange listed companies. At least one of the members of the Remuneration Committee should have knowledge and experience in the sphere of the salary establishment policy.

3.5. All new members of the collegial body should be offered a tailored program focused on introducing a member with his/her duties, corporate organization and activities. The collegial body should conduct an annual review to identify fields where its members need to update their skills and knowledge.

Yes

3.6. In order to ensure that all material conflicts of interest related with a member of the collegial body are resolved properly, the collegial body should comprise a sufficient number of independent members.

Yes

The Bank considers the following Supervisory Board members to be independent members: Mr. Michael D. Chartres and Mr. Maksim Anchipolovsky.

3.7. A member of the collegial body should be considered to be independent only if he is free of any business, family or other relationship with the company, its controlling shareholder or the management of either, that creates a conflict of interest such as to impair his judgment. Since all cases when member of the collegial body is likely to become dependant are impossible to list, moreover, relationships and circumstances associated with the determination of independence may vary amongst companies and the best practices of solving this problem are yet to evolve in the course of time, assessment of independence of a member of the collegial body should be based on the contents of the relationship and circumstances rather than their form. The key criteria for identifying whether a member of the collegial body can be considered to be independent are the following:

Yes

1) He/she is not an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) of the company or any associated company and has not been such during the last five years;

2) He/she is not an employee of the company or some any company and has not been such during the last three years, except for cases when a member of the collegial body does not belong to the senior management and was elected to the collegial body as a representative of the employees;

3) He/she is not receiving or has been not receiving significant additional remuneration from the company or associated company other than remuneration for the office in the collegial body. Such additional remuneration includes participation in share options or some other performance based pay systems; it does not include compensation payments for the previous office in the company (provided that such payment is no way related with later position) as per pension plans (inclusive of deferred compensations);

4) He/she is not a controlling shareholder or representative of such shareholder (control as defined in the Council Directive 83/349/EEC Article 1 Part 1);

5) He/she does not have and did not have any material business relations with the company or associated company within the past year directly or as a partner, shareholder, director or superior employee of the subject having such relationship. A subject is considered to have business relations when it is a major supplier or

service provider (inclusive of financial, legal, counseling and consulting services), major client or organization receiving significant payments from the company or its group;

6) He/she is not and has not been, during the last three years, partner or employee of the current or former external audit company of the company or associated company;

7) He/she is not an executive director or member of the board in some other company where executive director of the company or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) is non-executive director or member of the supervisory board, he/she may not also have any other material relationships with executive directors of the company that arise from their participation in activities of other companies or bodies;

8) He/she has not been in the position of a member of the collegial body for over than 12 years;

9) He/she is not a close relative to an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) or to any person listed in above items 1 to 8. Close relative is considered to be a spouse (common-law spouse), children and parents.

3.8. The determination of what constitutes independence is fundamentally an issue for the collegial body itself to determine. The collegial body may decide that, despite a particular member meets all the criteria of independence laid down in this Code, he cannot be considered independent due to special personal or company-related circumstances.

Yes

3.9. Necessary information on conclusions the collegial body has come to in its determination of whether a particular member of the body should be considered to be independent should be disclosed. When a person is nominated to become a member of the collegial body, the company should disclose whether it considers the person to be independent. When a particular member of the collegial body does not meet one or more criteria of independence set out in this Code, the company should disclose its reasons for nevertheless considering the member to be independent. In addition, the company should annually disclose which members of the collegial body it considers to be independent.

Yes

The members mentioned in clause 3.6 are considered to be independent members, as they meet the independence criteria set out in the Code.

3.10. When one or more criteria of independence set out in this Code has not been met throughout the year, the company should disclose its reasons for considering a particular member of the collegial body to be independent. To ensure accuracy of the information disclosed in relation with the independence of the members of the collegial body, the company should require independent members to have their independence periodically re-confirmed.

Yes

3.11. In order to remunerate members of a collegial body for their work and participation in the meetings of the collegial body, they may be remunerated from the company's funds. The general shareholders' meeting should approve the amount of such remuneration.

Yes

At the extraordinary general shareholders' meetings as of 12 October 2007 "The order of the remuneration for the Bankas Snoras supervisory board" was approved.

## Principle IV: The duties and liabilities of a collegial body elected by the general shareholders' meeting

The corporate governance framework should ensure proper and effective functioning of the collegial body elected by the general shareholders' meeting, and the powers granted to the collegial body should ensure effective monitoring of the company's management bodies and protection of interests of all the company's shareholders.

4.1. The collegial body elected by the general shareholders' meeting (hereinafter in this Principle referred to as the 'collegial body') should ensure integrity and transparency of the company's financial statements and the control system. The collegial body should issue recommendations to the company's management bodies and monitor and control the company's management performance.	Yes	
4.2. Members of the collegial body should act in good faith, with care and responsibility for the benefit and in the interests of the company and its shareholders with due regard to the interests of employees and public welfare. Independent members of the collegial body should (a) under all circumstances maintain independence of their analysis, decision-making and actions (b) do not seek and accept any unjustified privileges that might compromise their independence, and (c) clearly express their objections should a member consider that decision of the collegial body is against the interests of the company. Should a collegial body have passed decisions independent member has serious doubts about, the member should make adequate conclusions. Should an independent member resign from his office, he should explain the reasons in a letter addressed to the collegial body or audit committee and, if necessary, respective company-not-pertaining body (institution).	Yes	All the supervisory board members act in good will with regard to the Bank, follow the interests of the Bank and not their own or the ones of third parties, seeking to retain their independence in decision-making.
4.3. Each member should devote sufficient time and attention to perform his duties as a member of the collegial body. Each member of the collegial body should limit other professional obligations of his (in particular any directorships held in other companies) in such a manner they do not interfere with proper performance of duties of a member of the collegial body. In the event a member of the collegial body should be present in less than a half of the meetings of the collegial body throughout the financial year of the company, shareholders of the company should be notified.	Yes	The bank's supervisory board members actively participate in the board meetings and devote sufficient time and attention to perform their duties as members of the supervisory board.
4.4. Where decisions of a collegial body may have a different effect on the company's shareholders, the collegial body should treat all shareholders impartially and fairly. It should ensure that shareholders are properly informed on the company's affairs, strategies, risk management and resolution of conflicts of interest. The company should have a clearly established role of members of the collegial body when communicating with and committing to shareholders.	Yes	The collegial body of the Bank treats all the company's shareholders impartially and fairly.
4.5. It is recommended that transactions (except insignificant ones due to their low value or concluded when carrying out routine operations in the company under usual conditions), concluded between the company and its shareholders, members of the supervisory or managing bodies or other natural or legal persons that exert or may exert influence on the company's management should be subject to approval of the collegial body. The decision concerning approval of such transactions should be deemed adopted only provided the majority of the independent members of the collegial body voted for such a decision.	Yes	

4.6. The collegial body should be independent in passing decisions that are significant for the company's operations and strategy. Taken separately, the collegial body should be independent of the company's management bodies. Members of the collegial body should act and pass decisions without an outside influence from the persons who have elected it. Companies should ensure that the collegial body and its committees are provided with sufficient administrative and financial resources to discharge their duties, including the right to obtain, in particular from employees of the company, all the necessary information or to seek independent legal, accounting or any other advice on issues pertaining to the competence of the collegial body and its committees. Using the services of the aforementioned consultants or specialists in order to obtain information about the market standards of the salary establishment systems, the remuneration committee should ensure that at the same time that consultant would not provide consultations to the human resources unit of the related company or to the executive or members of the management bodies.

Yes The bank's supervisory board is independent in passing decisions that are significant for the Bank's operations and strategy.

4.7. Activities of the collegial body should be organized in a manner that independent members of the collegial body could have major influence in relevant areas where chances of occurrence of conflicts of interest are very high. Such areas to be considered as highly relevant are issues of nomination of company's directors, determination of directors' remuneration and control and assessment of company's audit. Therefore when the mentioned issues are attributable to the competence of the collegial body, it is recommended that the collegial body should establish nomination, remuneration, and audit committees. Companies should ensure that the functions attributable to the nomination, remuneration, and audit committees are carried out. However they may decide to merge these functions and set up less than three committees. In such case a company should explain in detail reasons behind the selection of alternative approach and how the selected approach complies with the objectives set forth for the three different committees. Should the collegial body of the company comprise small number of members, the functions assigned to the three committees may be performed by the collegial body itself, provided that it meets composition requirements advocated for the committees and that adequate information is provided in this respect. In such case provisions of this Code relating to the committees of the collegial body (in particular with respect to their role, operation, and transparency) should apply, where relevant, to the collegial body as a whole.

Yes Two committees are formed in the Bank: the internal audit committee as well as the nomination and remuneration committee.

4.8. The key objective of the committees is to increase efficiency of the activities of the collegial body by ensuring that decisions are based on due consideration, and to help organize its work with a view to ensuring that the decisions it takes are free of material conflicts of interest. Committees should present the collegial body with recommendations concerning the decisions of the collegial body. Nevertheless the final decision shall be adopted by the collegial body. The recommendation on creation of committees is not intended, in principle, to constrict the competence of the collegial body or to remove the matters considered from the purview of the collegial body itself, which remains fully responsible for the decisions taken in its field of competence.

Yes

4.9. Committees established by the collegial body should normally be composed of at least three members. In companies with small number of members of the collegial body, they could exceptionally be composed of two members. Majority of the members of each committee should be constituted from independent members of the collegial body. In cases when the company chooses not to set up a supervisory board, remuneration and audit committees should be entirely comprised of non-executive directors. Chairmanship and membership of the committees should be decided with due regard to the need to ensure that committee membership is refreshed and that undue reliance is not placed on particular individuals.

No The internal audit committee is formed of three members, one of whom is considered to be independent. The nomination and remuneration committee is formed of three members; however, the extraordinary general shareholders' meeting, which took place on 5 November 2009, satisfied the submitted resignation application of the member of the Board, who was also a member of the nomination and remuneration committee. Therefore, this committee in the Bank temporarily consists of two members.

The composition of the committees was formed considering the banking sector experience of the members, not their independence.

4.10. Authority of each of the committees should be determined by the collegial body. Committees should perform their duties in line with authority delegated to them and inform the collegial body on their activities and performance on regular basis. Authority of every committee stipulating the role and rights and duties of the committee should be made public at least once a year (as part of the information disclosed by the company annually on its corporate governance structures and practices). Companies should also make public annually a statement by existing committees on their composition, number of meetings and attendance over the year, and their main activities. Audit committee should confirm that it is satisfied with the independence of the audit process and describe briefly the actions it has taken to reach this conclusion.

Yes

4.11. In order to ensure independence and impartiality of the committees, members of the collegial body that are not members of the committee should commonly have a right to participate in the meetings of the committee only if invited by the committee. A committee may invite or demand participation in the meeting of particular officers or experts. Chairman of each of the committees should have a possibility to maintain direct communication with the shareholders. Events when such are to be performed should be specified in the regulations for committee activities.

Yes

4.12. Nomination Committee.

Yes

4.12.1. Key functions of the nomination committee should be the following:

The Bank has a formed nomination and remuneration committee which performs all the functions mentioned in clause 4.12.

1) Identify and recommend, for the approval of the collegial body, candidates to fill board vacancies. The nomination committee should evaluate the balance of skills, knowledge and experience on the management body, prepare a description of the roles and capabilities required to assume a particular office, and assess the time commitment expected. Nomination committee can also consider candidates to members of the collegial body delegated by the shareholders of the company;

2) Assess on regular basis the structure, size, composition and performance of the supervisory and management bodies, and make recommendations to the collegial body regarding the means of achieving necessary changes;

3) Assess on regular basis the skills, knowledge and experience of individual directors and report on this to the collegial body;

4) Properly consider issues related to succession planning;

5) Review the policy of the management bodies for selection and appointment of senior management.

4.12.2. Nomination committee should consider proposals by other parties, including management and shareholders. When dealing with issues related to executive directors or members of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) and senior management, chief executive officer of the company should be consulted by, and entitled to submit proposals to the nomination committee.

4.13. Remuneration Committee.

4.13.1. Key functions of the remuneration committee should be the following:

1) Make proposals, for the approval of the collegial body, on the remuneration policy for members of management bodies and executive directors. Such policy should address all forms of compensation, including the fixed remuneration, performance-based remuneration schemes, pension arrangements, and termination payments. Proposals considering performance-based remuneration schemes should be accompanied with recommendations on the related objectives and evaluation criteria, with a view to properly aligning the pay of executive director and members of the management bodies with the long-term interests of the shareholders and the objectives set by the collegial body;

2) Make proposals to the collegial body on the individual remuneration for executive directors and member of management bodies in order their remunerations are consistent with company's remuneration policy and the evaluation of the performance of these persons concerned. In doing so, the committee should be properly informed on the total compensation obtained by executive directors and members of the management bodies from the affiliated companies;

3) To ensure that the individual salary for the executive director and a member of the management body would be proportional to the salary of other executive directors of the company or members of the management bodies and other employees of the company;

4) To regularly supervise the salary nomination policy of the executive directors or members of the management bodies (as well as the policy of the remuneration substantiated by shares) and its implementation;

5) To provide the collegial body with proposals concerning proper forms of the agreements with the executive directors and members of the management bodies;

6) Assist the collegial body in overseeing how the company complies with applicable provisions regarding the remuneration-related information disclosure (in particular the remuneration policy applied and individual remuneration of directors);

7) Make general recommendations to the executive directors and members of the management bodies on the level and structure of remuneration for senior management (as defined by the collegial body) with regard to the respective information provided by the executive directors and members of the management bodies.

4.13.2. With respect to stock options and other share-based incentives which may be granted to directors or other employees, the committee should:

1) Consider general policy regarding the granting of the above mentioned schemes, in particular stock options, and make any related proposals to the collegial body;

Yes The Bank has a formed nomination and remuneration committee which performs all the functions mentioned in clause 4.13. The members of the nomination and remuneration committee, who are also members of the Supervisory Board, regularly participate in the meetings of the Bank's shareholders.

2) Examine the related information that is given in the company's annual report and documents intended for the use during the shareholders meeting;

3) Make proposals to the collegial body regarding the choice between granting options to subscribe shares or granting options to purchase shares, specifying the reasons for its choice as well as the consequences that this choice has.

4.13.3. Upon resolution of the issues attributable to the competence of the remuneration committee, the committee should at least address the chairman of the collegial body and/or chief executive officer of the company for their opinion on the remuneration of other executive directors or members of the management bodies.

4.13.4. The remuneration committee should inform the shareholders about execution of its functions and for this purpose to participate in the mentioned general shareholders' meeting.

4.14. Audit Committee.

4.14.1. Key functions of the audit committee should be the following:

1) Observe the integrity of the financial information provided by the company, in particular by reviewing the relevance and consistency of the accounting methods used by the company and its group (including the criteria for the consolidation of the account sets of the companies in the group);

2) At least once a year to revise the systems of the internal control and risk management, seeking to ensure that the main types of risk (including the risk related to compliance with the valid laws and rules) are properly identified, managed and the information about them is disclosed;

3) To ensure efficiency of the internal audit functions as well as providing recommendations on electing, appointing, re-appointing and dismissing the head of the internal audit subdivision and concerning the budget of this subdivision as well as monitoring how the company's administration reacts to the conclusions and recommendations of this subdivision. If there is no internal audit function in the company, the committee should assess the need to have this function at least once a year;

4) To provide the collegial body with recommendations, related to selecting, appointing, re-appointing and dismissing the external audit company (it is performed by the general shareholders' meeting of the company) and to the conditions of the agreement with the audit company. The committee should examine the situations concerning which the audit company or the auditor finds a reason for resignation and provide recommendations on the necessary actions in such case;

5) Monitor independence and impartiality of the external auditor, in particular by reviewing the audit company's compliance with applicable guidance relating to the rotation of audit partners, the level of fees paid by the company, and similar issues. In order to prevent occurrence of material conflicts of interest, the committee, based on the auditor's disclosed inter alia data on all remunerations paid by the company to the auditor and network, should at all times monitor nature and extent of the non-audit services. Having regard to the principals and guidelines established in the 16 May 2002 Commission Recommendation 2002/590/EC, the

Yes      The Bank has a formed internal audit committee which performs all the functions mentioned in clause 4.14.

committee should determine and apply a formal policy establishing types of non-audit services that are (a) excluded, (b) permissible only after review by the committee, and (c) permissible without referral to the committee;

6) Review efficiency of the external audit process and responsiveness of management to recommendations made in the external auditor's management letter.

4.14.2. All members of the committee should be furnished with complete information on particulars of accounting, financial and other operations of the company. Company's management should inform the audit committee of the methods used to account for significant and unusual transactions where the accounting treatment may be open to different approaches. In such case a special consideration should be given to company's operations in offshore centers and/or activities carried out through special purpose vehicles (organizations) and justification of such operations.

4.14.3. The audit committee should decide whether participation of the chairman of the collegial body, chief executive officer of the company, chief financial officer (or superior employees in charge of finances, treasury and accounting), or internal and external auditors in the meetings of the committee is required (if required, when). The committee should be entitled, when needed, to meet with any relevant persons without executive directors and members of the management bodies present.

4.14.4. Internal and external auditors should be secured with not only effective working relationship with management, but also with free access to the collegial body. For this purpose the audit committee should act as the principal contact body for the internal and external auditors.

4.14.5. The audit committee should be informed of the internal auditor's work program, and should be furnished with internal audit's reports or periodic summaries. The audit committee should also be informed of the work program of the external auditor and should be furnished with report disclosing all relationships between the independent auditor and the company and its group. The committee should be timely furnished with information on all issues arising from the audit.

4.14.6. The audit committee should examine whether the company complies with the applicable provisions regarding the possibility for employees to report alleged significant irregularities in the company, by way of complaints or through anonymous submissions (normally to an independent member of the collegial body), and should ensure that there is a procedure established for proportionate and independent investigation of these issues and for appropriate follow-up actions.

4.14.7. The audit committee should report on its activities to the collegial body at least once in every six months, at the time the annual and semi-annual statements are approved.

4.15. Every year the collegial body should conduct the assessment of its activities. The assessment should include evaluation of collegial body's structure, work organization and ability to act as a group, evaluation of each of the collegial body member's and committee's competence and work efficiency and assessment whether the collegial body has achieved its objectives. The collegial body should, at least once a year, make public (as part of the

information the company annually discloses on its management structures and practices) respective information on its internal organization and working procedures, and specify what material changes were made as a result of the assessment of the collegial body of its own activities.

Principle V: The working procedure of the company's collegial bodies

The working procedure of supervisory and management bodies established in the company should ensure efficient operation of these bodies and decision-making and encourage active co-operation between the company's bodies.

<p>5.1. The company's supervisory and management bodies (hereinafter in this Principle the concept 'collegial bodies' covers both the collegial bodies of supervision and the collegial bodies of management) should be chaired by chairpersons of these bodies. The chairperson of a collegial body is responsible for proper convocation of the collegial body meetings. The chairperson should ensure that information about the meeting being convened and its agenda are communicated to all members of the body. The chairperson of a collegial body should ensure appropriate conducting of the meetings of the collegial body. The chairperson should ensure order and working atmosphere during the meeting.</p>	Yes	
<p>5.2. It is recommended that meetings of the company's collegial bodies should be carried out according to the schedule approved in advance at certain intervals of time. Each company is free to decide how often to convene meetings of the collegial bodies, but it is recommended that these meetings should be convened at such intervals, which would guarantee an interrupted resolution of the essential corporate governance issues. Meetings of the company's supervisory board should be convened at least once in a quarter, and the company's board should meet at least once a month.</p>	Yes	<p>The meetings of the supervisory board are convened at least once a quarter, the meetings of the management board – at least once a fortnight.</p>
<p>5.3. Members of a collegial body should be notified about the meeting being convened in advance in order to allow sufficient time for proper preparation for the issues on the agenda of the meeting and to ensure fruitful discussion and adoption of appropriate decisions. Alongside with the notice about the meeting being convened, all the documents relevant to the issues on the agenda of the meeting should be submitted to the members of the collegial body. The agenda of the meeting should not be changed or supplemented during the meeting, unless all members of the collegial body are present or certain issues of great importance to the company require immediate resolution.</p>	Yes	
<p>5.4. In order to co-ordinate operation of the company's collegial bodies and ensure effective decision-making process, chairpersons of the company's collegial bodies of supervision and management should closely co-operate by co-coordinating dates of the meetings, their agendas and resolving other issues of corporate governance. Members of the company's board should be free to attend meetings of the company's supervisory board, especially where issues concerning removal of the board members, their liability or remuneration are discussed.</p>	Yes	

Principle VI: The equitable treatment of shareholders and shareholder rights

The corporate governance framework should ensure the equitable treatment of all shareholders, including minority and foreign shareholders. The corporate governance framework should protect the rights of the shareholders.

<p>6.1. It is recommended that the company's capital should consist only of the shares that grant the same rights to voting, ownership, dividend and other rights to all their holders.</p>	No	<p>The bank capital comprises ordinary and preferred shares.</p>
---	----	--

<p>6.2. It is recommended that investors should have access to the information concerning the rights attached to the shares of the new issue or those issued earlier in advance, i.e. before they purchase shares.</p>	<p>Yes</p>	<p>The bank informs the investors publicly of the rights of the new or the issued shares.</p>
<p>6.3. Transactions that are important to the company and its shareholders, such as transfer, investment, and pledge of the company's assets or any other type of encumbrance should be subject to approval of the general shareholders' meeting. All shareholders should be furnished with equal opportunity to familiarize with and participate in the decision-making process when significant corporate issues, including approval of transactions referred to above, are discussed.</p>	<p>No</p>	<p>According to the law of the limited liability companies of the Republic of Lithuania as well as Articles of Association of the Bank such issues are decided by the Bank management board. The important transactions require the approval of the supervisory board.</p>
<p>6.4. Procedures of convening and conducting a general shareholders' meeting should ensure equal opportunities for the shareholders to effectively participate at the meetings and should not prejudice the rights and interests of the shareholders. The venue, date, and time of the shareholders' meeting should not hinder wide attendance of the shareholders.</p>	<p>Yes</p>	<p>The Bank ensures equal opportunities for the shareholders to participate at the meetings and does not prejudice the rights and interests of the shareholders.</p>
<p>6.5. Seeking to ensure the right of the shareholders residing abroad to familiarize with the information, if possible, it is recommended that the documents on the course of the general shareholders' meeting should be placed on the publicly accessible website of the company in advance not only in Lithuanian but also in English and (or) in other foreign languages. It is recommended that the minutes of the general shareholders' meeting after signing them and/or adopted resolutions should be also placed on the publicly accessible website of the company in Lithuanian and in English and/or in other foreign languages. Documents referred to in this recommendation may be published on the publicly accessible website of the company to the extent that publishing of these documents is not detrimental to the company or the company's commercial secrets are not revealed.</p>	<p>Yes</p>	<p>The projects of the decisions of the meeting and other documents, as well as the decisions of the meeting are made publicly accessible by the Bank at the GlobeNewswire information disclosure system and at its website.</p>
<p>6.6. Shareholders should be furnished with the opportunity to vote in the general shareholders' meeting in person and in absentia. Shareholders should not be prevented from voting in writing in advance by completing the general voting ballot.</p>	<p>Yes</p>	<p>The Bank's shareholders may implement the right to participate in the general shareholders' meeting personally, through a representative or by submitting in advance the completed general voting ballot.</p>
<p>6.7. With a view to increasing the shareholders' opportunities to participate effectively at shareholders' meetings, the companies are recommended to expand use of modern technologies by allowing the shareholders to participate and vote in general meetings by using electronic communication means. In such cases, the safety of the transferred information must be ensured and possibility to identify the person who participated and voted. Moreover, companies could furnish its shareholders, especially shareholders residing abroad, with the opportunity to watch shareholders' meetings by means of modern technologies.</p>	<p>No</p>	<p>There is no need to install the measures mentioned in the clause. Moreover, the benefit from them would be smaller than the expenditures of their installation.</p>

## Principle VII: The avoidance of conflicts of interest and their disclosure

The corporate governance framework should encourage members of the corporate bodies to avoid conflicts of interest and assure transparent and effective mechanism of disclosure of conflicts of interest regarding members of the corporate bodies.

7.1. Any member of the company's supervisory and management body should avoid a situation, in which his/her personal interests are in conflict or may be in conflict with the company's interests. In case such a situation did occur, a member of the company's supervisory and management body should, within reasonable time, inform other members of the same collegial body or the company's body that has elected him/her, or to the company's shareholders about a situation of a conflict of interest, indicate the nature of the conflict and value, where possible.	Yes
7.2. Any member of the company's supervisory and management body may not mix the company's assets, the use of which has not been mutually agreed upon, with his/her personal assets or use them or the information which he/she learns by virtue of his/her position as a member of a corporate body for his/her personal benefit or for the benefit of any third person without a prior agreement of the general shareholders' meeting or any other corporate body authorized by the meeting.	Yes
7.3. Any member of the company's supervisory and management body may conclude a transaction with the company, a member of a corporate body of which he/she is. Such a transaction (except insignificant ones due to their low value or concluded when carrying out routine operations in the company under usual conditions) must be immediately reported in writing or orally, by recording this in the minutes of the meeting, to other members of the same corporate body or to the corporate body that has elected him/her or to the company's shareholders. Transactions specified in this recommendation are also subject to recommendation 4.5.	Yes
7.4. Any member of the company's supervisory and management body should abstain from voting when decisions concerning transactions or other issues of personal or business interest are voted on.	Yes

## Principle VIII: Company's remuneration policy

Remuneration policy and procedure for approval, revision and disclosure of directors' remuneration established in the company should prevent potential conflicts of interest and abuse in determining remuneration of directors, in addition it should ensure publicity and transparency both of company's remuneration policy and remuneration of directors.

8.1. A company should make a public statement of the company's remuneration policy (hereinafter – the remuneration statement), which should be clear and easily understandable. This remuneration statement should be announced not only as part of the company's annual report but it should also be posted on the company's website.	No	The Bank does not make a public statement of the remuneration policy.
8.2. Remuneration statement should mainly focus on directors' remuneration policy for the following year and, if appropriate, the subsequent years. The statement should contain a summary of the implementation of the remuneration policy in the previous financial year. Special attention should be given to any significant changes in company's remuneration policy as compared to the previous financial year.	No	The remuneration statement is not publicly stated.

<p>8.3. Remuneration statement should leastwise include the following information:</p>	No	The remuneration statement is not publicly stated.
<p>1) Explanation of the relative importance of the variable and non-variable components of directors' remuneration;</p> <p>2) Sufficient information on performance assessment criteria that entitles directors to share options, shares or variable components of remuneration;</p> <p>3) explanation how the chosen activity result assessment criteria are beneficial for the long-term interests of the company;</p> <p>4) explanation of the methods, which are applied in seeking to identify whether the activity result assessment criteria are satisfied;</p> <p>5) sufficiently comprehensive information about the periods of the payment delay of the part of the changeable composite remuneration;</p> <p>6) sufficient information about the link between the remuneration and the activity results;</p> <p>7) the main criteria (and their substantiation) of the annual premium system and any other non-monetary benefit;</p> <p>8) sufficiently comprehensive information about the dismissal pay policy;</p> <p>9) sufficiently comprehensive information about the period of granting the rights of the remuneration supported by shares, as specified in clause 8.13;</p> <p>10) sufficiently comprehensive information about upkeeping the shares after granting the rights, as specified in clause 8.15;</p> <p>11) sufficiently comprehensive information about the composition of the similar companies' groups, whose remuneration policy was analyzed seeking to identify the remuneration policy of the related company;</p> <p>12) A description of the main characteristics of the supplementary pension or early retirement schemes for directors.</p> <p>13) the remuneration report should not have information which is commercially non-disclosable.</p>		
<p>8.4. Remuneration statement should also summarize and explain company's policy regarding the terms of the contracts executed with executive directors and members of the management bodies. It should include, inter alia, information on the duration of contracts with executive directors and members of the management bodies, the applicable notice periods and details of provisions for termination payments linked to early termination under contracts for executive directors and members of the management bodies.</p>	No	The remuneration statement is not publicly stated.
<p>8.5. Remuneration statement should also contain detailed information on the entire amount of remuneration, inclusive of other benefits, that was paid to individual directors over the relevant financial year. This document should list at least the information set out in items 8.5.1 to 8.5.4 for each person who has served as a director of the company at any time during the relevant financial year.</p>	No	The remuneration statement is not publicly stated.
<p>8.5.1. The following remuneration and/or emolument-related information should be disclosed:</p>	No	The remuneration statement is not publicly stated.
<p>1) The total amount of remuneration paid or due to the director for services performed during the relevant financial year, inclusive of, where relevant, attendance fees fixed by the annual general shareholders' meeting;</p>		

- 2) The remuneration and advantages received from any undertaking belonging to the same group;
- 3) The remuneration paid in the form of profit sharing and/or bonus payments and the reasons why such bonus payments and/or profit sharing were granted;
- 4) If permissible by the law, any significant additional remuneration paid to directors for special services outside the scope of the usual functions of a director;
- 5) Compensation receivable or paid to each former executive director or member of the management body as a result of his resignation from the office during the previous financial year;
- 6) Total estimated value of non-cash benefit considered as remuneration, if such benefit should not be specified in clauses 1-5.

8.5.2. As regards shares and/or rights to acquire share options and/or all other share-incentive schemes, the following information should be disclosed:

- 1) The number of share options offered or shares granted by the company during the relevant financial year and their conditions of application;
- 2) The number of shares options exercised during the relevant financial year and, for each of them, the number of shares involved and the exercise price or the value of the interest in the share incentive scheme at the end of the financial year;
- 3) The number of share options unexercised at the end of the financial year; their exercise price, the exercise date and the main conditions for the exercise of the rights;
- 4) All changes in the terms and conditions of the existing share options occurring during the forthcoming financial year.

No The remuneration of directors is not in shares, share options or share price movements.

8.5.3. The following supplementary pension schemes-related information should be disclosed:

- 1) When the pension scheme is a defined-benefit scheme, changes in the directors' accrued benefits under that scheme during the relevant financial year;
- 2) When the pension scheme is defined-contribution scheme, detailed information on contributions paid or payable by the company in respect of that director during the relevant financial year.

No Directors are not allocated additional pensions.

8.5.4. The statement should also state amounts that the company or any subsidiary company or entity included in the consolidated annual financial statements of the company has paid to each person who has served as a director in the company at any time during the relevant financial year in the form of loans, advance payments or guarantees, including the amount outstanding and the interest rate.

No This information is confidential and is not publicly stated.

8.6. When the remuneration policy provides for changeable constituent remuneration parts, the companies should establish the limits of the size of the changeable constituent remuneration part. The non-changeable remuneration part should be sufficient that the company could be free from paying the changeable constituent remuneration part in that case when the activity result assessment criteria are not met.

No The remuneration statement is not publicly stated.

<p>8.7. The difference of the constituent remuneration parts should depend on the prior established and calculated activity result assessment criteria.</p>	<p>Not applicable</p>	<p>Remuneration amounts are fixed.</p>
<p>8.8. When the changeable constituent remuneration part is allocated, the payment of this larger changeable constituent remuneration part should be postponed for a specific period corresponding to reasonable criteria. The size of the changeable constituent remuneration part, whose payment is postponed, should be determined according to the relational value of the changeable constituent remuneration part, by comparing it with the unchangeable remuneration part.</p>	<p>Not applicable</p>	<p>Remuneration amounts are fixed.</p>
<p>8.9. Agreements with executive directors or members of the management bodies should include the provision permitting the company to recover the changeable constituent remuneration part which was paid out according to the data that later turned out to be obviously incorrect.</p>	<p>Not applicable</p>	<p>Remuneration amounts are fixed.</p>
<p>8.10. Dismissal pays should not exceed the established sum or the determined number of the annual remunerations and generally they should not be larger than the sum of the two-year unchangeable remuneration part or its equivalent.</p>	<p>Yes</p>	
<p>8.11. Dismissal pays should not be paid if the employment agreement is terminated due to bad activity results.</p>	<p>Yes</p>	
<p>8.12. In addition, information should be disclosed, which is related to the process of preparation and decision making when the remuneration policy of the company's directors is established. The information should include the data, if applicable, about the remuneration committee's authorizations and composition, the names and surnames of the consultants, not related to the company, whose services were used while establishing the remuneration policy, as well as about the role of the annual general shareholders' meeting.</p>	<p>No</p>	<p>Such information is not publically stated.</p>
<p>8.13. In case when the remuneration is based on the shares allocation, the right to the shares should not be granted for at least three years after their allocation.</p>	<p>No</p>	<p>The remuneration of directors is not in shares, share options or share price movements.</p>
<p>8.14. Share options or other rights to acquire shares or receive remuneration, based on the share price movements, should not be used at least three years after their allocation. Granting the right to the shares and the right to use the share options or to acquire shares with other rights or to obtain remuneration, based on the share price movements, should depend on the prior established and calculated activity result assessment criteria.</p>	<p>No</p>	<p>The remuneration of directors is not in shares, share options or share price movements.</p>
<p>8.15. After granting the rights the directors should keep a certain number of shares till the end of their office term, depending on the need to cover some expenses, related to the share acquisition. The number of the shares, which should be kept, must be determined, for example, by the double value of the general annual salary (unchangeable plus changeable part).</p>	<p>No</p>	<p>The remuneration of directors is not in shares, share options or share price movements.</p>
<p>8.16. The remuneration of directors' consultants or members of the Supervisory Board should not include the share options.</p>	<p>Yes</p>	<p>The remuneration of directors is not in shares, share options or share price movements.</p>
<p>8.17. Shareholders, primarily institutional shareholders, should be motivated to participate in the general shareholders' meetings and to vote on issues of establishing the directors' remunerations.</p>	<p>Yes</p>	

<p>8.18. Without prejudice to the role and organization of the relevant bodies responsible for setting directors' remunerations, the remuneration policy or any other significant change in remuneration policy should be included into the agenda of the shareholders' annual general meeting. Remuneration statement should be put for voting in shareholders' annual general meeting. The vote may be either mandatory or advisory.</p>	No	The remuneration policy is not publicly stated and is not approved at the shareholders' meeting.
<p>8.19. Schemes anticipating remuneration of directors in shares, share options or any other right to purchase shares or be remunerated on the basis of share price movements should be subject to the prior approval of shareholders' annual general meeting by way of a resolution prior to their adoption. The approval of scheme should be related with the scheme itself and not to the grant of such share-based benefits under that scheme to individual directors. All significant changes in scheme provisions should also be subject to shareholders' approval prior to their adoption; the approval decision should be made in shareholders' annual general meeting. In such cases shareholders should be notified on all terms of suggested changes and get an explanation on the impact of the suggested changes.</p>	No	The remuneration of directors is not in shares, share options or share price movements.
<p>8.20. The following issues should be subject to approval by the shareholders' annual general meeting:</p> <ol style="list-style-type: none"> <li>1) Grant of share-based schemes, including share options, to directors;</li> <li>2) Determination of maximum number of shares and main conditions of share granting;</li> <li>3) The term within which options can be exercised;</li> <li>4) The conditions for any subsequent change in the exercise of the options, if permissible by law;</li> <li>5) All other long-term incentive schemes for which directors are eligible and which are not available to other employees of the company under similar terms.</li> </ol> <p>Annual general meeting should also set the deadline within which the body responsible for remuneration of directors may award compensations listed in this article to individual directors.</p>	No	The remuneration of directors is not in shares, share options or share price movements.
<p>8.21. Should national law or company's Articles of Association allow, any discounted option arrangement under which any rights are granted to subscribe to shares at a price lower than the market value of the share prevailing on the day of the price determination, or the average of the market values over a number of days preceding the date when the exercise price is determined, should also be subject to the shareholders' approval.</p>	No	The remuneration of directors is not in shares, share options or share price movements.
<p>8.22. Provisions of Articles 8.19 and 8.20 should not be applicable to schemes allowing for participation under similar conditions to company's employees or employees of any subsidiary company whose employees are eligible to participate in the scheme and which has been approved in the shareholders' annual general meeting.</p>	No	The remuneration of directors is not in shares, share options or share price movements.
<p>8.23. Prior to the annual general meeting that is intended to consider decision stipulated in Article 8.19, the shareholders must be provided an opportunity to familiarize with draft resolution and project-related notice (the documents should be posted on the company's website).</p>	No	The remuneration of directors is not in shares, share options or share price movements.

The notice should contain the full text of the share-based remuneration schemes or a description of their key terms, as well as full names of the participants in the schemes. Notice should also specify the relationship of the schemes and the overall remuneration policy of the directors. Draft resolution must have a clear reference to the scheme itself or to the summary of its key terms. Shareholders must also be presented with information on how the company intends to provide for the shares required to meet its obligations under incentive schemes. It should be clearly stated whether the company intends to buy shares in the market, hold the shares in reserve or issue new ones. There should also be a summary on scheme-related expenses the company will suffer due to the anticipated application of the scheme. All information given in this article must be posted on the company's website.

Principle IX: The role of stakeholders in corporate governance

The corporate governance framework should recognize the rights of stakeholders as established by law and encourage active co-operation between companies and stakeholders in creating the company value, jobs and financial sustainability. For the purposes of this Principle, the concept "stakeholders" includes investors, employees, creditors, suppliers, clients, local community and other persons having certain interest in the company concerned.

9.1. The corporate governance framework should assure that the rights of stakeholders that are protected by law are respected.	Yes	
9.2. The corporate governance framework should create conditions for the stakeholders to participate in corporate governance in the manner prescribed by law. Examples of mechanisms of stakeholder participation in corporate governance include: employee participation in adoption of certain key decisions for the company; consulting the employees on corporate governance and other important issues; employee participation in the company's share capital; creditor involvement in governance in the context of the company's insolvency, etc.	Yes	The Bank has not made any limitations as to the participation in the authorized capital.
9.3. Where stakeholders participate in the corporate governance process, they should have access to relevant information.	Yes	

Principle X: Information disclosure and transparency

It is also recommended that information about the amount of remuneration received from the company and other income should be disclosed with regard to members of the company's supervisory and management bodies and chief executive officer as per Principle VIII.</p>	<p>Yes</p>	
<p>10.4. It is recommended that information about the links between the company and its stakeholders, including employees, creditors, suppliers, local community, as well as the company's policy with regard to human resources, employee participation schemes in the company's share capital, etc. should be disclosed when information specified in item 7 of Recommendation 10.1 is under disclosure.</p>	<p>Yes</p>	
<p>10.5. Information should be disclosed in such a way that neither shareholders nor investors are discriminated with regard to the manner or scope of access to information. Information should be disclosed to all simultaneously. It is recommended that notices about material events should be announced before or after a trading session on NASDAQ OMX Vilnius, so that all the company's shareholders and investors should have equal access to the information and make appropriate investing decisions.</p>	<p>No</p>	<p>The importance of events is taken into consideration, at times the Bank announces the essential events during the trading session.</p>
<p>10.6. Channels for disseminating information should provide for fair, timely and cost-efficient and, in cases established by the legal acts, gratuitous access to relevant information by users. It is recommended that information technologies should be employed for wider dissemination of information, for instance, by placing the information on the company's website. It is recommended that information should be published and placed on the company's website not only in Lithuanian, but also in English, and, whenever possible and necessary, in other languages as well.</p>	<p>Yes</p>	<p>The information at the Bank's website is published in Lithuanian, English and Russian languages.</p>
<p>10.7. It is recommended that the company's annual report, the set of financial reports and other periodical accounts prepared by the company should be placed on the company's website. It is recommended that the company should announce information about essential events and changes in the price of the company's shares on the Stock Exchange on the company's website too.</p>	<p>Yes</p>	
<p>Principle XI: The selection of the company's auditor</p>		
<p>The mechanism of the selection of the company's auditor should ensure independence of the firm of auditor's conclusion and opinion.</p>		
<p>11.1. An annual audit of the company's set of interim financial statements, the company's set of annual financial reports and the annual report should be conducted by an independent firm of auditors in order to provide an external and objective opinion on the company's financial statements.</p>	<p>Yes</p>	<p>The audit of the Bank's financial reports is performed by UAB "Ernst &amp; Young Baltic"</p>

11.2. It is recommended that the company's supervisory board and, where it is not set up, the company's board should propose a candidate firm of auditors to the general shareholders' meeting. Yes

11.3. It is recommended that the company should disclose to its shareholders the level of fees paid to the firm of auditors for non-audit services rendered to the company. This information should be also known to the company's supervisory board and, where it is not formed, the company's board upon their consideration which firm of auditors to propose for the general shareholders' meeting. Yes
